

Year 3/ 4 – Summer Term Learning Journey 2024

Theme:
Understanding and respecting others

Concept:
Sustainability

Topic:
Renewable energy

Subject	Topic
Science	Living things & their habitats
Geography	How do we energise our homes?
History	Ancient Egyptians
RE	What is right/ wrong? Life as a journey
PE	Athletics OAA Tennis Rounders
PSHE	Being safe Changes
Computing	Repetition in games Rules of social media
French	Storytelling
Music	Blackbird Reflect, Rewind, Replay
Art	Fabric of nature
DT	Eating seasonally

Welcome to the Summer term! This term we have lots of exciting topics which will provide us with skills to use now and in the future!

Throughout the Summer term we will continue to explore the theme of 'Understanding and Respecting Others'. We will delve into the importance of changes and diversity and advocate our school motto of, 'Everyone is different, Everyone is special.' We will explore ways of 'being safe' and how this links to being respectful. We will explore how what we share online can impact our lives in the future and to always be cautious.

Throughout this term we will be investigating the following exciting questions:

Why is it important for people to respect each other?

How might we identify when something is disrespectful?

What strategies do we know to stay safe online?

Things to remember:

PE- Tuesday & Friday

Weekly Homework- *Reading, TTRs, Spelling Shed, Maths flex.*

Our residential this year will be at Boggle Hole! This is now available to pay by instalments on ParentPay.

Our curriculum content has been organised around this concept, with our key text: *Ariki and the Island of Wonders*. We will explore the importance of energy within the UK and how renewable energy is sustainable within our Geography lessons. We will form a deep knowledge of eating seasonally within our DT lessons where we will learn a range of cooking skills to be healthy eaters. In our science lessons, we will creatively investigate the different habitats amongst living things and the dangers in the world that keep these habitats from being sustainable. In our computing sessions, we will explore the importance of social media and why age restrictions are put in place on specific platforms.

This journey of understanding sustainability and the impact of renewable energy is certainly going to keep us hooked during the Summer term!

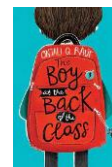

Book recommendations for this term. Borrow from school or pop to your local library!

When the whole world is sleeping, gruesome giants guzzle up human beans. The only one who can stop them is the... BFG!

When a boy fills an empty seat, children think he is strange- he does not talk or like lemon sherbets! But Josie and her friends have a plan!

Lucy and her friends become suspicious when the dinners in schools change, dinner ladies begin to wear goggles and their friend Maisie is missing.

Can he do it?
